# HEALTH RESTORED.

world, the flesh, or the devil. For, from those still solemn hours of the night, when human figures lie like recumbent statues in the darkness, and from those other hours when busy forks and fingers deliver to the mouth the food which the palate stands ready to welcome from these two things, I say, proceed all human power, together with the clearness and sanity of mind which lead it to every valuable ac-

"When we sleep," said Leigh Hunt, "is the time when the mysterious spirit goes to take its airy rounds." "I advise you to sleep in peace and wake in joy," said Sir Walter Scott. "Sleep," said Bulwer, "is the happiest of earthly boons." "Sleep," said a poet-philosopher of Boston, "lingers all our lifetime near our eyes as the night hovers all day in the boughs of the fir tree."

What these gentlemen say is very good and fine, and makes sleep seem as easy a thing to come at as a ham sandwich is to the fellow who has five cents still left in his pocket. Nevertheless, if you could take the roofs off the houses and look down into them from above, passing from one to another, swift as Asmodeus, you would see millions of people tumbling about on their beds, praying in vain to the somnolent gods from early evening to the crack of day.

"I couldn't sleep," writes a lady. "I tossed and tumbled with pain and excitement. This was some five years ago. I suffered greatly from pain in the back, strange mental hallucinations, loss of appetite, scanty and dark fluid which scalded in passing, bad taste in the mouth in the morning, loss of nerve and tone, restless nights, gradual failure of weight and energy, and dark and sallow skin. I had no ambition to go about my daily duties. Even the weight of my

"My sister had taken Warner's Safe Cure for female weakness and been immensely benefited. I gave up my doctor and

began using the Safe Cure. Soon I felt like another person. I could eat heartily and my system was filled with fresh vigor. My health was restored and I worked with ease and slept like a tired school girl." (Signed). Mrs. J. H. PAGE, Brockton,

# Chadron, Neb., March 21.-In a letter

from Hongkong to his brother, John Enhe was just embarking at the time of writing. The wealth is said to have been concealed on the island of Sulu, one of the smaller of the Philippines, by Capt. Jorge de Ovande, a former commander of the Spanish garrison there.

"I'm starting on this venture," he writes, after a few preliminary remarks, "on the say-so of a Chinaman named Foo Haouche, a former merchant at Manila. His word is the only guarantee I have that it isn't a wild-goose chase. The story certainly sounds fishy, but I believe it. In the first place, I've checked over part of it and found that the facts are just as he represents them. In the second, he's willing to back the expedition with his own coin, to risk the dangers we are sure to encounter, and has maps purporting to show the exact location of the cache. So it looks as if he thinks the yarn true himself.

"Prior to Admiral Dewey's capture of the Philippines Spain maintained a small garrison at Solu. But the Spanish commander's control was little more than nominal. The real raise was a Moro chief, or Sultan, as the natives call him, for all the Sulu Islanders are Mohammedans. These chiefs che, a former merchant at Manila. His

Islanders are Mohammedans. These chiefs winked at any amount of piracy and brigandars among their subjects, and their plunder was frequently exceedingly valuable. The lion's share naturally went to the Sultans, and, in the course of years, they were supposed to have accumulated enurmous wealth.

One of the main sources of the Span-"One of the main sources of the Spanish governor's revenue was the system of blackmail levied on the native rulers. Among the foxical of these Spanish robbers was Capi. Jorge de Ovando, who bossed the island during the latter eightics. Foo says he gathered in \$200.000 or \$200.000 in a couple of years. Toward the end of 1889 he seems to have scented a native uprising, for he arrested a lot of Moros, strengthened his garrison and placed himself generally on a war footing.

"It wasn't convenient for him to remove his wealth to a safe place at the time, and Foo is certain that to protect it fill the army in conformity with the re-

tomers. The Chinaman had acted as his broken in disposing of the plunder aqueez-ed out of the Moro Sulfan, and, by using his eyes and ears as only a Chinaman shall be given to volunteer seamen who are known how to use them, had learned more their country in the war with Spain and si than Ovando suspected concerning the lat-

Superiority of Our Service Generally Acknowledged.

Compliments From La Revue Diplomalique.

Conspicuous Illustrations of Enterprise on the Part of United States Agents.

The State Department has received from Consul General Mason, of Berlin, a copy of an article published in the organ of the French diplomatic and consular service, "La Revue Diplomatique," which comments on the United States consular service in a highly complimentary way. A transla-

machinery was purchased at St. Louis at a cost of \$10,000.

The factory will furnish employment at first to about twenty men. Most of them will be skilled laborers from the United States. It is two intention of the company to merely supply the demand in the vicinity of Casas Grandes, and in all the mining districts. Heavy wagons, adapted for long hauling over rough mountain reads, are especially necessary for use at the mines. The hickory and oak used in the construction of the wagons and other vehicles will be purchased at Memphis, Tenn. The timber in the Sierra Madre Mountains is not available, and will not be until there is an extension of the Rio Grande, Sierra Madre, and Pacific Road, which is a probability of the immediate furture. At this port, during the past year, \$22,000 worth of wagons and other vehicles were imported. The duty assessed upon these objects varies from \$10 to \$50 for each vehicle. or, swift as Asmodeux, you would see millions on their bedap praying in vain to the sound-ing to the crack of day.

toric stream. The Fairfax stone is at the

corner of two States-Maryland and West Virginia—and four counties—Garrett, in Maryland, and Preston, Tucker, and Grant, in West Virginia. It is said to have been

the first monument erected in what is now

West Virginia to mark ownership of land, The stone had a base two feet six inches square, and the shaft was of sandstone, four feet six inches from base to apex.

out in its place. The stone still stands. The planting of the Fairfax stone mark-ed the wind-up of a survey completed in October, 1746, to determine the extent of

Lord Fairfax's natent. The King of England granted Lord Fairfax's petition to allow the survey, and the commissioners appointed to carry out the work started

om Fredericksburg. Va. The object of he survey was really to determine the ex-ent of the Potomac River and to locate its rst spring or first fountain. At the mouth

of the south branch a halt was made, but

the north branch was decided to be the

true continuation of the Potomac, and the tedious journey was continued until the fountain head, the present site of the

Fairfax stone, was reached. Then the par-ty returned, and the surveyors made a map and sent it, with their report, to Eng-

land. The stone was planted several years

New Jersey's Oldest Editor.

Salem, March 21.-Robert Gwynn, sr., seventy-

ive years old, the oldest editor in the State of

New Jersey, died in this city yesterday morning. He was born in Ireland, but came to this country

so frequently referred to in the

The United States Government Issues five distinct publications. There are the two large annual volumes, containing reports on trade and commerce, manufactures, finance, customs laws, transportation facilities, etc., with special reference to opportunities for, or obstacles to, the extension of sales for United States products mitted to the State Department some intransportation of the care tension of sales for United States products abroad. Since the beginning of 1898 they have issued a daily edition of the "Consular Reports," so that within a few boars the manufacturing and commercial community are in re-There was no date, but on each side were the letters "F. X." This stone, which was one of the most interesting historic monuments in the United States, was destroyed in December, 1884, by some persons unknown. It is generally believed that mischievous boys were at the bettom of the same subject, concludes Consul Halstead, of Birgmingham, on

February 20, 1899, says that the trade pa-per "Paper and Pulp," commenting on the same subject, concludes: thievous boys were at the bottom of the candalism. The Davis Coal and Coke Company had a stone cut, as nearly as possible a reproduction of the original, and

The United States is ahead of the world in regard to quick consular reports, and to this fact alone can be traced so much of the loss suffered by English traders. MEXICO AND MONEY ORDERS.

Rejoicing at the Prospect of Such

Consul Jones, of Tuxpan, writes the State Department that there is much re- goods joicing throughout that district and throughout the entire republic over the prospects of a money-order postal service days? between Mexico and the United States.

is willing to extend a credit for at least thirty days?"

Again, the English and German manufacturers canvass for trade through the medium of clever commercial travelers, who visit the dealer personally, and none of whom carries more than five or six different lines. Above all, they are thoroughly acquainted with every line they carry. Contrast with our American manufacturer. He makes a centract with an export commission house and sends the house a line of expossive samples, besides inserting a cestly advertisement in the columns of its monthly or weekly "Export Journal." What is the result? The commission house has on hand from seventy-five to a hundred and fifty different lines of goods, not 5 per cent of which it knows anything about. Is it possible to handle needles, sideboards, traction engines, firearms, stoves, tacks, railroad cars, books and eyes, bieveles, etc., and make a commercial success, I mean a commercial success to the manufacturer, not to the commission house, which, it goes without saying, has a very comfortable profit out of the transaction on the advertising alone.

It seems to me a perfectly logical proposition that the sooner our American manufacturer goes directly after the foreign trade with the vim and energy be displays in seeking trade at home, the faster will be his progress. "It will be the means, I think, of introducing many of our goods into these markets." the Consul says. "The money order and parcel post systems open up such a field in Mexico for the mailing departments of our large stores that it will pay our merchants to cover it with catalogues printed in Spanish. The well-to-do fami-lies of Mexico have long been anxious for our goods, and only the means of getting them has been lacking."

## WANT AMERICAN BLEF.

Citizens of Strassburg Suffer From

New Jersey, died in this city yesterday morning. He was been in Ireland, but came to this country when thirteen years old. He learned the printing trade in the office of the "Pennsylvanian." in Philadelphia, under Hamilton and J. W. Forney. On March 26, 1840, half a century ago next Sunday, he purchased "The Sunbeam" newspapers, in this city, and he continuously edited and published it up to the time of his death. It is one of the leading and most prosperous Democratic newspapers in the State. His son, Robert Gwynn, jr., now mayor of the city, and who assisted his father in editing "The Sunbeam" for ten years past, is now on a pleasure trip in the West Indies. Mr. Gwynn was a ready writer and a rapid compositor, and up to this last illness he spent several bours each day in his composing room. Up to within twenty years ago he read all his newspaper proof in type.

Dr. T. A. Wadsworth Dies Suddenly:

New York, March 21.—Dr. Theodore A. Wadsworth, forty-six years of age, of No. 68 West Fifty-second Street, dentist, died suddenly of angina pectoris on Saturday evening, in the office of his physician, Dr. Stevens, at No. 70 West

Rev. E. Edwards, pastor of the English Baptist Church at Minersville, Pa., when suffering with rheumatism was advised to try Chamberlain's Pain Baim. He says: "A few applications of this liniment proved of great service to me. It subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Baim a trial it will please me." For sale by Henry Evans, Wholesale and Retail Druggist, 338 F Street northwest: Connecticut Avenue and S St.

The price of horse meat is also going up steadily; it ranges now from 6 to 8 cents per pound.

#### MEXICAN ENTERPRISE. Investments at Casas Grandes Prom-

Consul Charles W. Kindrick, at Cludad Juarez, has transmitted to the State Department an interesting report on the increase of enterprise in Casas Grandes, Mexico. As a result of the growth of that terminus of the Rio Grande, Sierra Madre

# HON. CHAMP CLARK, M.C., MISSOURI. number of industries are pending. The town of Cassa Grandes is the basis of operations for the new mining country recently opened, and is rapidly developing. The demand for vehicles of all kinds, and for furniture and building materials—like sashes, doors, and blinds—has become so brisk that capital has sought the field as one promising profitable investment. The Mormon colonists near Cassa Grandes have a small furniture factory, which turns out a cheap grade to supply local demands. A factory has recently been established in the city to make wagons, buggies, asshes, doors, and blinds, and is new ready to be put into operation. It is owned and controlled by the Cassa Grandes Industrial Company, which is capitalized at \$5,000. A concession was obtained from the State of Chihuahua, which exempts the plant from taxation for a period of five years. The machinery was purchased at St. Louis at a cost of \$10,000.

Mr. Clark Cured of a Throat Trouble that No: Only Distressed Him, but Threatened to Stop His Speaking in the Halls of Congress - The \$5 a Month Rate Ends April I -A Free Trial Treatment to All.

Hon, Champ Clark, M. C.

#### A Congressman's Story.

A Congressman's Story.

In presenting Mr. Clark's endorsement, two symptoms are mentioned which the general public do not realize as being caused by catarrh. These are irritability of temper and confusion of memory. In relating his experience, Mr. Clark asys:

For some time previous to the organization of the Fifty-fifth Congress I began to notice several very uncomfortable and disagreeable symptoms in my nose and throat, which not only affected my voice, but prevented me from fixing my thoughts on subjects in question. My nose would stop up, my head felt dull, heavy, and ached. I became nervous and irritable. My throat was dry and frequently filled with macus, difficult to expel. My voice lost its volume and force. After speaking with macus, difficult to expel. My voice lost its volume and force. After speaking only a short time I would become boarse, and only those very near me could hear what I was saying. My distressing condition became apparent to all, and it was while considering what best to do I was advised by the late lamented Governor Nelson Dingley to adopt the Cowden-Riegel treatment. He said he had suffered from the same aggravating symptoms and Riegel freatment. He said he had suffered from the same aggravating symptoms and had tried a number of remedies and several eminent specialists, but had found no re-lief until he adopted the Cowden-Riegel method, and then for the first time procured almost immediate and permane

Such advice from such a man must l Such advice from such a man must be accepted without question, so I applied a once for treatment. My experience was most pleasing indeed. I was reflexed almost at once. My head became clear, breathed freely through my nose, my voice cleared up, mucus crassed to accountiate and cough stopped. Since this treatment I have specken for two or three hours in public halls and out of door meetings, and experienced none of my furner troubles. experienced tone of my furmer troubles. I feel as well us ever, and in conclusion can only say that if I should ever have a repetition of such symptoms, I will go at once to Dra Cowden and Riegel, where I am sure of obtaining relief.

#### Two Liberal Offers. These offers expire April 1 and are de-

## serving of the most careful consideration.

Office Fees. All new patients applying and all old patients renewing before April 1 will be treated at the uniform rate of \$5 per month until cured, medicines included.

#### Moleculizer Fees.

All patients desiring home treatment by the Moleculizer method will be furnished a complete outfit and remedies suitable to their case at the rate of \$5 for the first month and \$2.50 for each month following The privilege of one office visit a week for onsultation and medicine is also allowed. This is a great offer and will prove of value to the following class of patients:

Those who cannot afford to take office treatment.

Those who cannot spare the time to call regularly, and those who live at too great a distance.

The Moleculizer overcomes all these objections and permits each patient to treat himself by the identical method that has cured Mr. Clark and thousands of others.

#### A Free Trial.

All are invited to call at the Cowden offices for a free trial treatment, that they may see for themselves the effects of this truly wonderful treatment in their own case. This will also permit a free investigation of the Moleculizer.

In Charge of His Embassy,

The State Department was notified vesterday that Charlemange Tower, American Ambas-sador to Russia, had presented his credentials and assumed charge of the Embassy at St.

He says in part:

the Commissioners of the Pietrict of Columbia, Washington, March 15, 1894—SEALER PRO-PUSALS endorsed "Proposals to tell school site" will be received until 12 O'CLOCK M. ON SAT-URDAY, THE 25TH INSTANT, to sell to the District of Columbia a site for an eight-room public school building in the Seventh division. The lot must be not less than 100 feet front by 125 feet deep, and be located in the section bounded by Fourteenth Street, Lamar Street text deep, and be located in the section bounded by Fourtsenth Street, Lamar Street, Purner Street, Brightwood Avenue, Bismarck, and Vale Streets northwest. Bids for property fronting on either side of those streets will be considered. A certificate of the Collector of Taxes that the bidder has deposited \$500 with him, or a certified check for said amount on some banking institu-tion in the Bistrict of Columbia, must accom-pany each bill as a guarantee that the bidder will complete the sale of the ground if his bid should be accepted. The right to reject any and all bids is hereby reserved. JOHN R. WIGHT, JOHN W. ROSS, LANSING H. BEACH, Commis-sioners of the District of Columbia. mh37-61-exSu There is a great field in South America for the American manufacturer and exporter, there being so many rich concerns here which send practically all their basiness to Great Britain and the Continent, a large share of which might be diverted into American channels, if our exporters and manufacturers had only the same confidence in the dealer here that they have at home. I am convinced that the dealer in South Africa has an equal amount of honesty, and undoubtedly more means at his command, the question of remoteness being the only thing against him. The question has been asked: "Why does the foreign dealer give the spreference to European manufacturers?" This may be answerd very simply with another question: "Why does the American manufacturer or jobber exact from the foreign customer a settlement of account for goods purchased long before the goods are received, and frequently before the goods have ever been shipped, when the European manufacturer is willing to extend a credit for at least thirty days?"

Azain, the English and German manufacturers
